News

Covid

UK Nash Hash Postponement.

This message was pasted on Facebook:

'As you can imagine there has been constant discussion about all large Hash events in the next two years.

Inter hash in Trinidad has been moved to 2022 and traditionally Nash Hash would be on the alternate year to give as many Hashers as possible the time and cash to attend both events. Full Moon Nash Hash was also moved to be staged on the alternate year to Nash Hash.

Our proposed venue has been strongly effected by the pandemic and will not be ready to receive a big group until safety can be confirmed. We have taken the most difficult decision to postpone until 2023.'

Around the same time Mike Featherstone announced that the **Pan Asia 50th Anniversary Celebration** scheduled for Hong Kong in 2020 has been indefinitely postponed.

The staging of **Australia Nash Hash** was also uncertain and the Adelaide Nash Hash Committee informed hashers that: *'Please know that we are very*

well aware of the consequences of postponing and that we will not please or suit everyone, but the health and safety of all hashers involved is the main priority. We want as many hashers to come as possible.

So the best I can give you all is that we will have a definitive answer for you by the end of September.

On on, Thumpa.'

Philippines

Angeles City hash legend Jorge Morphine completed his 100th Bushranger Hash. *'An amazing achievement for an 80 year old hasher. He finished at the front of the pack too!'*

France

Colleen Garland put a post on Facebook trying to reconnect with people who had created a Hash in Lorient, France in 1998. It seems the core of the hashers worked for Northrop Grumman. On On Magazine would also be interested in any news of that group.

Malaysia

After many years of running with the Dubai hashes, where he was a popular RA, Nancy Boy and family moved to Malaysia. He was taken unwell on the trail and the lads brought him out of the jungle and to a local hospital. A few days later he posted the following message *'Now, 47 years on I find myself once more hospitalised in something called a CCU which is like an ICU for beginners, having suffered a bit of a heart*

attack.' Get back to hashing quickly Nancy Boy!

Members of Miri Oil Town H3 (MOTH3H) and Miri H3 (MH3H) were amongst the invited guests when Assistant Minister of Tourism, Arts and Culture Datuk Sebastian Ting visited a newly discovered Japanese air raid shelter. A narrow opening widened out to an impressive inner chamber. The report was unclear, but it seems likely that it was hashers who stumbled on the find.

Macao

Run 1142 was organized as the 2020 Red Dress Charity Pub Crawl Run. *'Dust off your red dresses and shave your legs'*. It would be the first Red Dress Run in 4 years with five sponsoring pubs. *'BRING: your sexiest red dress, a face mask and Macao Pass...there will be a bus involved'*.

UAE

The Dubai hashes are once again setting proper trails while carefully following government restrictions. The question of whether sport groups have permission to gather is uncertain, and an outdoor barbecue would certainly be frowned upon. Nether can you invite guests into your house. However, pubs are open so the traditional run from a villa, or driving

out into the 'desert' (usually a patch of sand waiting development) has given way to town runs set from just outside a pub that can provide food later in the evening.

The Desert Hash – with around 30 turning up to each pre-COVID run (suggesting a pool of around 50 runners) have lost at least eight regular members due to the COVID-19 recession, the main casualties being pilots and those in the gas/oil industry.

Abu Dubai H3 is back up and running with packs of around a dozen. They continue to attract a younger crowd than the Dubai hashes, perhaps because they successfully recruit local teachers.

England

Hashing in the UK is slowly returning to normal. The Isle of Wight H3 announced, *'we have been running pretty much since the pubs opened. We however have stopped using pubs as a venue. We tried 1 indoor venue but concluded that it is too risky so only outdoors from now on. We have started the walking hash so numbers can be split between the 2 in case we get over 30.'*

Guildford H3 were helping with the Fox Way Ultra r+n, manning one of the first aid posts. They also had three hashers *'who quite frankly are all old enough to*

Hashing slowly returns! Left to right, Bangladesh, Vietnam, Philippines, Norway.

Red Snapper

Houston Hasher Wanda *Red Snapper* Callahan passed away on the 19th August. She had served in the United States Air Force, working as a Power Plant Engineer and received her chemical engineering degree from the University of Washington. On leaving the air force Wanda joined Shell, moving around the world and adding hashing to a long list of interests. She completed the Houston Marathon in 1999.

Retirement gave her the opportunity to step up her training and she took part in Exterra Triathlons and half marathons. She also enjoyed bowling, pickle ball, skydiving, Tai Chi, dragon boat racing, and playing the clarinet in concert bands. She also significantly improved her golf game - all this while waging a battle with cancer.

Stephen Foster Beard

Stephen Beard has passed away from complications brought on by heart surgeries. Stephen was born on December 7, 1940 and moved to London in the 1960s where he created a successful company during the construction boom. He first started visiting Thailand in the late 1980s, before settling here in the mid-1990s. He was a central

figure in the Pattaya golf scene and opened the Hare House Pub in 1997, which became home to both golfers and the Hash House Harriers.

Induces Menstruation

At the time of his death *Induces* was the leading runner on the Angeles City H3 with 1,211 hashes to his credit. He had previously run with Taipei Hash, where he was christened Permanent Press "PP" as his hash shirts were always so wrinkly. He was re-named at Angeles CH3 in the 1990s. Horatio Molestrangler comments, 'Sure was a character - enjoyed many long hikes and interesting conversations with him. An ACH3 foundation stone, he will certainly be missed.' We had some great times Shagger! Will miss those champagne fuelled flights, the late night raiding of the hotel bar, the confusion on the packs faces as they tried to work out our unique trail marking methods mangling two chapters systems together, the stitch up shot nights and so many other good times. Will miss you mate, carve your own unique trail across the stars. On on *Induces*

Which kennels went through the COVID-19 crisis

without missing a run?

(We mean REAL hashes, setting off together and finishing with a circle)

Stockholm Underground (Sweden)

Confirmed

Stockholm Absolut (Sweden)

know better' taking part, these being Daring (42 km), Dingers (60+ km), & LG (60+ km). *'This is our way of giving back to the local r*unning community and also a good excuse to abuse those unnecessarily athletic members when they're at their lowest'*.

Scotland

For the past 14 weeks **Aberdeen H3** has been participating in FOOFAAH Hashes, which facilitates individuals or clusters to follow a regular sequence of pre-laid trails. Each trail is refreshed as necessary by the hare so as to keep it live for approximately 10 days. The acronym stands for 'Follow Oodles Of Flour At Any Hour', and the FOOFAAH4 was formed specifically to administer this interim variation on conventional hashing.

Sweden

Ali Wank Bonk has been elected the new GM of the Stockholm Absolut H3 (that's considered the senior hash in the city). *Ali Wank Bonk* is one of those development practitioners who has done 100+ runs through long-term postings in Dhaka, Hanoi, Harare, and Dar es Salaam, where he received his hash name. He has been settled in Stockholm for several years now. 2 *Swedes Cummin* will share RA duties with *Tranny Granny*.

Stockholm hashers usually send a team to the Medoc Marathon (in France), a major event on the running scene that combines running with drinking fine wines. Unable to get to France they organised *Medocseason1* around the royal castle of Drottningholm.

Bangladesh

With the country more or less ignoring Covid-19, the Dhaka Mixed Hash has been getting back to normal with weekly runs, often in the countryside. The only difference is there is no car pooling and hashers must pre-arrange transport to the run site. While new roads help hashers get further into the countryside, horrendous traffic tends to build up towards evening so that a 30 minute drive to the run site can turn into a two hour crawl back home.

Solomon Islands

Was this the run of the month? On 14th September Honiara H3 set a hash along Bloody Ridge, a major battle in the Second World War.

USA

The building of a 'land bridge' in Houston Memorial Park has both fans and critics. For the hash the start of work meant there was no longer access to a favourite venue.

Mexico

There was an internet exchange between Hazukashii and Amnesia concerning two (short-lived?) hashes in the 1970's - these being *San San Luis Obispo H3* (California) and *Pueblo H3* (Mexico). Both were credited to Graham Belton and therefore descended from Bicester. Amnesia comment that both hashes had been authentication by Proof and that he personally had run with Pueblo H3.

Bahrain

Received this report from STTI: *'It is nearly 6 months since Bahrain InterGulf and our bars are still not open. During lock down, we've managed to keep the hashes going by laying trail and telling everyone what time they can run. As we still have a restriction of 5 in a group, circles are currently a thing of the past.'*

Qatar

The Nigh Crawlers are back up and running and they plan to celebrate their 10th anniversary on 9th October.

International

Walter Moore announced: *'it is my honour to serve as Grand Master of the Hash Founders Hash. I'm stumbling in the footsteps of great hashers such as Hazukashii and Deep Throat. Never heard of us? We are a hash kennel made up of founders of hash kennels. Our trails can be the highlights of big events.'*

Hashers

A to Z

Letter C

Camel Jockey **Gani Maksud** **Dhaka H3**

For many years Camel Jockey was a central figure on the Bangladesh hash scene where he ran with both the men and the mixed hashes. He was a long-term trail master who was probably a little too nice to do the job, as he ended up setting most of the runs himself! Has now relocated to Malaysia.

Tony Campbell **Hong Kong**

Was on the first ever Hong Kong hash and set their 4th run.

Candyfloss **Jason Dyer** **Yorkshire H3**

Candyfloss has been present at numerous big hash events over the last two decades, often serving on the committee and usually offering his computer skills. In addition to his world travels (at one point he was 11th in the 'Where Have You Hashed' rankings) he has clocked up 500 plus runs with Yorkshire H3.

Canman **Robin Low** **Chichester H3**

Rob was born in Fife and studied at Aberdeen University, where he captained the boxing team. He then served his national service on submarines and from there joined the colonial service. He started hashing on the Solomon Islands around 1973. On returning to England in 1983 his wife started a doctor's practise in East Sussex and Rob became one of the founders of Chichester H3. He spent four spells as joint Hash Master and was elected President for Life in 2015. An update from Spiderman noted that, '*Robin is still joining the hash but is not so agile these days.*'

Camel Jockey (left) in his Dhaka days

Cans **Peter Edwards** **Perth H3**

Peter Edwards was present on Perth Run Number 1 and still running with them 30 years later. After several years on the committee he became GM in 2003

Can't Hound **Bill and Ubol Brenneman** **Aruba H3**

Co-founders of Aruba H3 in 1981

Cap'n'Hook **Taipei H3**

A core member of the Taipei H3. Most famous for organizing the last hash through the red-light district of Peitou before it was closed down by the government. '*The organizer and hare was Cap'n'Hook survivor of a thousand forays through every Red Light district known to man and sailor, from Birkenhead to Brisbane.*' According to the yearbook he was once said to have got into an argument with a Hong Kong bargirl because she wanted 150HK\$ and he insisted the price should be 200 HK\$.

Captain Condom **Basil Fraser** **Hobart H3**

Captain Condom started hashing with Hobart H5 in 1997, finding the combination of beer and running the perfect mix. From September 1999 he was also regularly hashing with the newly formed Chardonnay H3. Interhash 2000 was staged in Hobart and Basil helped to set one of the trails. He continued to hash with both clubs and achieved 1,000 runs at H5 in September 2018, and 1,000 runs at Chardonnay in September 2019. He is believed to be the first Tas-

Canman in his youth
as a mere 70 year old

Buffalo in Ankara

Updated from last month

Buffalo

Bill Sutcliffe

World traveller

Buffalo started his hashing way back in 1978 with the Night Runners of Bengal. His consultancy work took him around the world for the next four decades, including initial spells in Mali, Saudi and Malaya. In 1998 he moved to Ghana where he hashed with Accra H3 and founded Kumasi H3. A short spell in England did not interrupt his hashing and Buffalo turned out with Oxford and Bicester before heading for Windhoek. Since then he has continued to collect countries including Turkey (Ankara H3), Rumania (Bucharest H3), Afghanistan (Kabul H3), Nepal (Kathmandu H3) and Egypt (Cairo H3).

manian hasher to achieve 1,000 runs at two different clubs. He has added Interhash in Chang Mai and Kuching to his hash record and was a hare at Nash Hash Australia in 2011. He continues to hash, but at 60 confesses to slowing down a little.

Captain Crash

Cobb

Phoenix H3

One of the original Phoenix Hashers. He loved flying and was known for his maverick style and received his hash name after surviving a plane crash. In May 1992, Captain Crash was taking off from the Chandler, Arizona Municipal Airport when his aircraft malfunctioned and crashed just outside the airport fence. There were no survivors. Every year the Phoenix Hash honours his memory with a Memorial Hash starting from the impact site.

On On Captain Crash

Captain Kirk

Colin Frost

Wold hasher

English born, but has spent most of his life travelling as an engineer in the oil industry. He started hashing in Indonesia around 1984 and went on to spend six years hashing in Brunei. A year running in Brisbane with the Heterosexual Hash was followed by four years of post grad work, when his hashing was limited to holidays. From there he moved to Maryland and still has a particular fondness for the US style of hashing with the regular weekend trips into the countryside. He was Saudi based from 2003 and served as GM on the Jubail Hash. An InterHash regular since Tasmania 2000.

Captain Haddock

John Baber

Ikeja

An enthusiastic member of Ikeja H3 during their early days. He joined them on run 67 but then competed 110 of their first 200 runs. In the same spell, he was hare or co-hare on 18 occasions.

Captain Haddock

Richard Gard

Kirton H3

Has completed 1500 runs with Kirton H3 on Cyprus.

On on

Mother Hash

Pre 1941

The original sources

*Cecil Lee's written
interview with Magic
Part 2*

In 1986 Magic sent thirteen written questions to Cecil Lee. The written replies form one of the most detailed first hand accounts of pre-war Mother Hash. The full interview can be read in the Bangkok 500th Anniversary Book.

Question 8 and 9 concerned the organization and date of the first run.

Lee denied being the organizer of the first run, 'Certainly G organized the first run. He had to urge me to that part.' He notes there were no documents of the first run, so that the date has been lost. Lee made no attempt to suggest a possible date.

Question 10 concerned the influence of Malacca and the Springett Harriers.

Lee had no information to offer beyond recognizing that G's experiences in Malacca had been an influence on him founding a hash in KL.

Question 11 concerned a later group, the Rucksack Club that seems to have been an English based hiking club.

While answering this question Lee brought attention to Dr. Dick Boydell, 'a noted toxicologist'. Lee says that Boydell's entry in *Whose Who* listed the Hash House Harriers (along with the Atheneum and the Rucksack) as his clubs. He noted that Boydell might be the only person in that large and prestigious volume to mention membership of the Hash.

Question 12

Asked why the club had been nicknamed 'The Dog'

Lee suggested, 'it was something to do with a lady who picnicked next to the club with a dog'. He then directed readers to Chris Allen's *Tales of the South China Seas* for more details.

Q13 asked if he had any message for InterHash in Thailand

'I have pretty well exhausted my messages.' However, he then noted the international nature of hashing which 'may even contribute to the 'détente' with the Soviet.' He also commented that 'G would laugh if he knew what had happened'.

Lee then rambled a bit, noting his travels were now limited because of his wife's illness, but suggesting he would like to see Thailand again. He then gave a few memories of his time as a prisoner of war, 'I once collected water from a lake in the Royal Palace'.

What can we learn from this?

- Lee's comments about G does not alter the belief that the formation of the hash should be credited to a small group of founders. Although G might well have organized the first run, the growth and success of the group deserves wider credit.
- The last free-ranging comments illustrates that there is still potential for researching the war experiences of the hash pioneers.
- The mention of Dr Dick Boydell draws attention to an overlooked pioneer of the hash.
- The comments about 'The Dog' offers yet another version of the tale.
- Sadly Lee gave no clues to the date of the first hash, a question we will look at in a later issue.

We're all gutted that Nash Hash in Yorkshire has been postponed.

While Kelso Nash Hash in the Borders reached a memorable milestone – the 20th UK NH – maybe it's time to reminisce about the events from yesteryear...

The UK Nash Hash History – In The Beginning

To commemorate this landmark I have produced an historical account of all our yesterdays.

A book and keepsake to bring back to life the ghosts of Nash Hash past.

Here's what the hash have made of it:

"I read it through in one sitting and thoroughly enjoyed it all"
- Tops

"It's a great read and has certainly brought back some good memories. It's also a reminder of what hashing is all about!"
- Vicki Vomit

"Superb. It brought back such memories"
- Amnesia

"Wonderful hash book"
- Mr Beaky

Marmite and Termite's total of 3076 runs between them might well be a hash record for a married couple.

The Hash Story

Bangkok Run Number 1

Bill Panton wrote the following account of the first ever Bangkok hash. It is undated but seems to have been written three years later, so events would still have been fresh in mind.

There is a copy on gototheshash.net but a summary of some key points are reprinted here for the lazy:

- Bill notes that there were rumours of an earlier kennel that pre-dated the current 1977 hash. He suggests this might actually have survived, but developed into the Royal Bangkok Sports Club jogging section.
- The arrival of Jim Stewart via Hong Kong, and Bill himself via Washington, inspired a second attempt at starting a hash kennel.
- These two hashers got in touch with one another in March or April of 1977.
- They undertook 3 recces in different areas to see if the surrounding countryside would prove hash friendly.
- With at least one of the sites holding promise, they placed an advertisement at the British Club where the manager was John Davies, an ex hasher from Cyprus. (Because of work commitments John never actually hashed in Bangkok).
- Rumours were spreading around town that hashing was a crazy idea that would never work in Bangkok.
- The founders selected Saturday to avoid the worse traffic and on June 11th, 1977, Bill set a run while Jim waited to see if anybody actually arrived.
- With the trail finished, Bill joined the pack as one of ten runners.
- Bill noted that 'Our first run would be classed as little on the short side by present standards, but was more than enough for most of us.'

The 10 hashers on the first run:

Bill Panton – went on to be a hash legend, who was still hashing in his nineties.

Jim Stewart – worked for HSBC Bank. Soon afterwards he returned to Hong Kong.

Don Martinusen – Worked for the World Bank. Was a noted jogger who was considered the fastest of the pack.

Jonathan Mills – never returned after this first run!

Howard Taylor – left after a year to found Cambridge H3.

Guy Ravencroft – left shortly afterwards. He is reported to have started a hash in a Sierra Leone mining camp. *Note this needs researching as it would rewrite the early history of hashing in Africa.*

Arthur Philips – brought hash experience from KL. He was still running with Bangkok H3 three years later when this article was written!

Ed Nicol – worked for Cathy Pacific and a keen soccer player.

Dave Boskett - was still running with Bangkok H3 three years later!

Phil Bulmer - only did a few runs and then decided hashing wasn't for him.

'The Hounds of Bangkokville'

BUT mad dogs and Englishmen go out in the midday sun," sang Noel Coward about half a century ago and unwittingly gave the HHHH its theme song. The HHHH is not a racialist gang like the KKK (Klu Klux Klan), neither is it an automotive organisation like the AAA (American Automobile Association) nor a financial institution such as the CCC (Commercial Credit Corporation).

The Hash Houndies are sporting dogs dedicated to "The (grass square in the centre of town) and contemplating the circumstances that brought him halfway around the globe. An Australian, who in the absence of pubs at that time was doing his crawling in and around "The Dog", was approaching with an ale in hand when a rabbit broke out of the bushes and scampered across the "padding."

As if the blast of an old hunting horn had suddenly aroused his instinct, the Englishman vaulted the veranda and started after the bunny. Startled, the Australian

BILL PANTON ... he founded the Bangkok Kennel and presently is running it around the Kennel in West Bangkok P.O.

A Hash Song

This song is often credited to Gunga Dick and linked to an incident that occurred on the Singapore Hash in June 1967.

David Gibb (an Aussie) ran through a pig shed thinking the brown surface was solid and not a tank of pig swill. If that was the inspiration then it is likely the song did not make its première until a later hash as it seems to have had some thought put into it.

One a Jolly hashman, jumped into a shiggypit
 Under the smell of a durian tree;
 And he hummed and he sunk and he
 swallowed all that shiggypit:
 ‘I’ll not see the beer alive,’ wailed he.

Short cutting hashman, short cutting
 hashman,
 ‘I’ll never shortcut again,’ said he;
 and he stank as he sank and wallowed in the
 shiggypit
 Who’ll come a wallowing a hashman with
 me.

Up jumped a kampong man, screaming
 hysterically
 ‘You can’t swim there, Tuan,’ said he;
 ‘That’s my joy shiggypit, you’ve got in your
 underpants
 That will cost you dollars, one to three.’

Out climbed the hashman, drippy very
 smellily;
 ‘You’ll never get your kitty from me;
 And he squelched and he oozed as he hailed
 a passing tekski,
 I’ve got to catch the pack, said he.

Now his scent might be smelt as he runs the
 trail so lonelyly;
 Please, please, please come a running
 with me
 But the hash far ahead are hiding so craftily,
 Back to your shiggy pit and let us be

A Hash Legend

The long term GM of a certain hash in France is also the local village lawyer.

He was supervising the hash barbecue after a run when hikers complained that you were not allowed to light fires in the forest.

The hash ignored the indigent ladies, who marched off to the local police station to lodge a complaint.

An hour later the GM’s phone rang. It was the local police chief asking what were the rules about barbecues in the forest?

‘Barbecues in a forest reserve, that’s a tough one,’ said the GM as he turned over the sausages. ‘Let me look it up in the office tomorrow and get back to you.’

A Hash Idea

Addis H3 have issued a set of trump cards - what a brilliant idea!

Hash Legend

Rob Bwana Walker

1951-2019

Bwana started hashing in Mombasa and as the Hash Master organized weekly Hashes and Away Trips and lots of fun. In the eighties Bwana moved to Milan and set up the Royal Milan and Bordighera H3 (RMBH3), and was supported by Fabulous, Death Roll, Toned deaf, Sex but No Grappa and Iron Bum. Many crazy Hashes were run on Sunday afternoons in the countryside in Lombardy, followed by the Circle with Bwana and Toned deaf and Fabulous at the Helm. The Hash was followed by lunch and a local restaurant with plenty of singing with Bwana the center of the party and courses of “Yogi Bear”, “I like the Vino”, etc”. Bwana, Toned deaf and Fabulous organized Away Weekends in Bibione and Finale Ligure (Ghost on the Coast Hash). RMBH3 also travelled a lot to Switzerland to meet up with our chums there (Likk´mm and the gang) and to France for the Ski Hash organized by Iron Lady. Nobody can forget the “dropping of the cake” on the occasion of Fabulous Fabio´s birthday. I arrived in Milan in 1994 (from Antigua H3) and first met Bwana at an Accountants Dinner (as we sadly are both very boring accountants). At the Dinner Bwana encouraged me to join RMBH3 and the rest is history!

Bwana´s first big adventure was taking a bunch of RMBH3/Swiss Hashers to Zimbabwe for a 10 day trip with hippos and crocs and lions entertaining us. No Mercy Master and Likk´mm and about 20 other hashers joined for this memorable trip. Bwana then got more ambitious and organized a trip to the Kalahari to celebrate the entry into the Millennium. On 31 December 1999 we had a Hash and a Circle on top of a sand dune in the middle of the Kalahari Desert, with Iron Bum, Bwana and Fabulous running the circle. The circle ended on 1 January 2000!! Perfect Millennium Party and Hash.

Bwana then moved to Richards Bay, South Africa in 2000 and immediately set up the Hippo Hash. We had many great trails there and a contingent from Maputo H3, Mozambique joined us for a big Hash Weekend there. As I keep saying Hashing was Bwanas life and his passion. Bwana was a Chartered Accountant, so the Hash was a welcome escape from the boredom of accountancy.

In 2003 Bwana pulled off the Pre-ramble to the Africa Hash in Mombasa which started in Nairobi

and ended in Mombasa in time for the Africa Hash. We had awesome stops and Hashes in Arusha and Tanga (Tanzania). Then in Mombasa the Boys did the unforgettable “Hat Dance” – Bwana, Chuck Speers, Silver Bullet and Ring Peace!!

Bwana then moved to Maputo, Mozambique in 2001, and quickly set up the Matola H3. In 2005 Bwana organized the most spectacular Hash Event - The Africa- Xpress!!! A Hash Train with twelve carriages running from Johannesburg to Capetown with 150 Hashers aboard. The seven day trip had stops in Swaziland, Maputo, Fricksberg, Lesotho, Port Elizabeth and Addo. We had a Hash every day followed by the Circle - then back to the party carriage in the Train every night – that train was rocking 24/7!!!! As a natural Hash Leader Bwana had a strong committee behind him and every step of the journey was well planned. The Africa-Xpress was a huge success. The train journey ended in Capetown for the Africa Hash and the party continued there – with Hash Acts and a huge storm when the Hash Tent nearly blew away!

After the Africa-Xpress, Bwana started to wonder if we could pull off an Africa Hash in Maputo. Noooooo we all said – not possible!!!! But being Bwana the wheels went into motion and he decided that we would do the Africa Hash in Maputo in 2007. Months of planning, and it happened. With loads of Hashers signed up, and again with a strong Hash Committee behind him Bwana pulled this one off! It was another huge success. Not content with organizing the Africa Hash, Bwana (and Careca and Ring Peace and a big Committee) also organized the Africa hash Post Ramble consisting of a 4x4 road trip to the Maputo Elephant Reserve, Inhaca and Catembe. Who cannot forget the naked Down Down´s in the pool in Catembe! Bwana was also responsible for a Hash Cruise from Durban to Dar Es Salaam, with hashers from all over the world participating – another BIG success in the history of this BIG Hash legend!!!!

Bwana after all those highs continued to run Matola Hash and organize away weekends in Swaziland, Marloth Park (South Africa), Ponta Do´Ouro and Kaapsehoop (South Africa) on an annual basis as well as running the regular Sunday Matola Hashes. His circles were always memorable with Hash Shit and Hash Trollop playing a leading role in the rendition of Swing Low. His rendition of “Singing in the Rain” in the Hot Pool in Swaziland is never to be forgotten.

Bwana passed away suddenly on 2 May 2019 – He will always be remembered – RIP Bwana.

Bwana - The Hash was His Life!!
Rough Knight

Hashing was
his Life!!

Intergulf

20th Intergulf in Bahrain March 19,20,21 2020

We managed to host the Friday run with one international visitor who managed to slip into Bahrain in time, via Egypt and 10 hrs waiting for the entire plane to be negative to the virus. Well done *Hazu Kashii*. And thanks for staying another month (some say he had nowhere to go).

Sadly many had to cancel as travel bans were enforced. We only hosted the main Friday run hared by Saigon Sally and Rick O'shea. Rick O'shea then ended up with pluerisy (we learnt during a pandemic it's not a good thing to walk into emergency and say you

can't breath). All good now.

The run was in an interesting desert part of Bahrain full of canyons, hills, rocky wadis, military installations, oil and gas pipes, nodding donkeys.

We named a new Bahrain hasher. Forever to be known as Slither as he loves looking for snakes and lizards in unusual places.

Three of the committee (STTI, Stick Free Licks Me and Sweet Boobs Alabama) spent a night tie dying the intergulf shirts. Half way through we discovered that the printer had made an error on the back. Really makes these a collector's item now.

Big thanks to the committee who had the entire event ready.

On On
